

## Project Engineer

Based in the outdoor recreation hub of Squamish, BC, this is a role for a project manager who understands industrial processes, equipment development and plant construction. EPCM company experience working in the chemical, electrochemical or petrochemical process industry would be ideal. Reporting to the Project Manager, you will be responsible for creating and maintaining project documentation (WBS, Gantt Chart, Risk Register, RACI, etc.) and tracking tasks for industrial plant design and construction activities.

This is an opportunity to join a team focused on integrating atmospheric CO<sub>2</sub> into liquid fuels production and a great match for an individual who wants to be part of a culture where your contributions are noticed.

Qualifications:

Education: BS in Engineering; Project Management Professional (PMP) certification is desired but not required.

Experience: Minimum 3 years of relevant project engineering experience that includes:

- Creating and maintaining an integrated, MS Project schedule and work breakdown structure.
- Coordinating internal and external process and equipment project teams.
- Planning, scheduling and construction of industrial plants starting from front end engineering design and progressing through detailed design, construction and commissioning.
- Managing vendors, sub-contractors and external consulting activities.
- Communicating with internal and external project stakeholders across all organization levels.
- Identifying and mitigating project risk.
- Successful accomplishment of assigned projects.

In addition to technical skills, you also need to have these attributes to be the right fit:

- A self-starter with the ability to work independently towards multiple deadlines with minimum supervision in a fast-paced environment.
- Hands-on experience and comfort working in a development environment.
- Thrive on doing things that have not been done before (explorer mindset).
- Must have either landed immigrant status or Canadian Citizenship.

If this seems like the dream job for you, send your resume to [careers@carbonengineering.com](mailto:careers@carbonengineering.com) and quote "Project Engineer" in the subject line.
